THE OUTLOOK.

[Eureka Sentinel.]

The unparalleled prosperity and magnificent developments in our two principal mines, the Eureka Consolidated and Richmond, and the general outlook all along the lode, is a source of encouragement and a subject for congratulation among all interested in the welfare of Eureka. The steady and uninterrupted outward flow of bullion that has characterized them for months past, and one that promises to be indefinitely continued in the future, stamp the Base Range as one of the most important silver producing regions in the world, both in scope and productiveness. We now yield the palm to only one district, the Comstock, and we are audacious enough to believe that the time will come when we will rival our lordly neighbor. Of course we do not institute any present comparison, as the output of that wonderful lode admits of none, but our prospects at the present writing are so bright that it is allowable for us to indulge in some slight exultation. From the first discovery up to date, there has been very little of the hurrah or furore that has attended almost every other camp in the State, but we have gone on steadily improving, learning more applicable processes by experiment, and making the most of our resources until we have arrived at a clear understanding of the value and extent of the grand deposits that underlie the hills and mountains in this vicinity. Deep working has proved the permanence, and as depth is obtained the ore bodies are most extensive and of a higher grade. Throughout the district the greatest activity prevails, and many properties are coming into prominence by sheer merit and value of developments. Since last September we have sent abroad a million a month, and as Spring opens and work is inaugurated, it is probable that this amount will be increased one-third. The direct effect of this state of affairs has been to start an era of improvements, and the town is taking unto itself airs; substantial buildings, elegant business houses and cosy private residences going up as if by magic. Notwithstanding this increase, we doubt there being an eligible house to let in town, and the demand is far beyond the supply. We are of the opinion that next Summer will be the liveliest season ever experienced on the Base Range, and we are borne out in our opinion by the present situation.

THE MEAT SUPPLY.

[Tuscarora Times-Review.]

For some time past representatives of the heavy San Francisco wholesale butchers have been making their way through this and other counties in the State, purchasing large numbers of beef cattle for that market, paying generally prices which were as a rule higher than could be realized by our local firms upon shipping directly to the Bay. The Reno journals insist that the cause of this is the action of the California and Nevada Meat Shipping Association in building slaughter-houses and yards at Reno, where the cattle are killed and shipped in refrigerator cars to San Francisco. There is considerable in this, but the beef bought here is of a better quality than that to be obtained in California, and as shippers have heretofore been at the mercy of a ring of wholesalers in that city, many have ceased making it the destination of their beef, and are looking elsewhere for a place to dispose of their surplus, as was evinced last Summer by a few firms in this vicinity. This does not suit the bay folk, and they are forced to adopt some means to stop such a procedure. This added to the doings of the Reno Meat Association has brought them to a realization of the ultimate result of their former course. But the association has accomplished more than this. It has now thoroughly demonstrated that dressed meat can be taken to San Francisco in prime condition by the use of the refrigerator car, and if it can be taken three hundred miles in that manner, it can be taken three thousand. Hence, Chicago and the other great cities can be brought in direct competition with San Francisco, and an abundant market furnished for all the meat that can be produced in this State or any other section of the coast. This has given a new impetus to the cattle business in Nevada, and beef is gradually advancing in price, which will continue, and will cause a further growth in the business, and Nevada will hereafter produce more beef for exportation than she has ever done before.

NEW RATES.—On the first of March another general reduction will probably be made in telegraph rates. This rate of reduction is believed to have been determined upon for messages from all large business centers, but the company is still undetermined whether or not it should apply to all localities where there is a telegraph office, irrespective of the number of messages transmitted.—Eureka Republican.

WONDERFUL SUCCESS

OF THE GREAT
LUNG AND THROAT REMEDY.

DR. EBEL'S
BALSAM AND COUGH MEDICINE

Declared to surpass everything hitherto introduced for the Swift and Speedy Cure of all Lung and Throat complaints.

The sale of this famous remedy, for the cure of all Colds or Coughs peculiar to this mountain climate, has increased so marvellously since its recent introduction, that the proprietor fearlessly challenges comparison with any medicine of the kind in the world.

This wonderful remedy is especially adapted for all Lung and Throat Complaints peculiar to miners, or any persons liable to exposure from cold drafts in tunnels; working in bad air underground, or the absorption of powder smoke into the lungs. Three doses a day will keep the lungs clear, and enable the miner to work in the midst of powder smoke without coughing.

It is not claimed for this Balsam, like most patent medicines, that it will cure all diseases, but it is guaranteed to cure all diseases of the lungs. One bottle of the Balsam will, in nearly all cases, cure a bad cold or cough of from one to two months' duration; two bottles, a cold or cough of from two to four months' standing; and three bottles any similar affection that has been in existence for several years.

Notice This! The public is called upon to observe that Dr. Ebel will in all cases refund the money to purchasers of the Balsam on the returning the bottles to him, if not cured within a reasonable length of time.

It is to be had of all Drug Stores and all Merchants' stores in mining camps.

O. C. POWNING, EDITOR AND PROPRIETOR

TUESDAY, FEBRUARY 12, 1878.

ENGLISH SENTIMENT.—The British fleet has been ordered to Constantinople. The announcement of the fact in the House of Commons Friday evening was followed by deafening cheers.

Even the London *Times*, which has heretofore bitterly opposed English interference in the Eastern question, now says: "If the legitimate interests of the country are to be protected the Government may have to act, and act promptly," and advises that a generous support be accorded it.

The English House of Commons Friday voted the £6,000,000 demanded by the Government, amid enthusiastic cheers from the Conservatives. The vote was 328 ayes to 121 nays.

JOHN H. KINKAD.—Of a Republican candidate for Governor, the *Enreka Republican* speaks of John H. Kinkad, of Humboldt, as follows:

The *Silver State* boasts the name of John H. Kinkad for Governor. We are not slate writing just now, and only refer to the foregoing to say that among all the good Republicans of the State, there are few if any, whom we would rather see on the ticket, or who, if elected, would carry a better character or more sterling qualities into the gubernatorial chair. Mr. Kinkad is an old resident of Nevada, and during the time he was State Treasurer under the Territorial government of this State made and left a record which is as clean as the driven snow.

SAN FRANCISCO MARKET.—The supply of vegetables fully meets the demand at present prices. Green peas and asparagus are not coming in very plentifully as yet. Brussels sprouts and artichokes are cheaper, and new cabbage is making its appearance in the market. Sweet potatoes are scarce and dearer. The fish market is bare of codfish and rockfish and such varieties as principally come from the outside, one schooner of the fishing fleet being the only arrival from outside in three weeks. The remainder of the market is without much change.

BONANZA YIELD FOR JANUARY.—The total shipment of the California Mining Company for the month of January was \$1,774,063 90, of which \$912,985 50 was silver and \$861,078 40 gold. The total shipment of the Consolidated Virginia Mining Company was \$1,011,271 08, of which \$864,596 01 was silver and \$146,675 07 gold. Total from the two mines, \$3,385,339 98.

THERE are now six States west of the Missouri river, viz: Colorado, California, Kansas, Nevada, Nebraska and Oregon. These States have twelve Senators in Congress, and yet the population of all six is not half that of the State of New York, which has only two United States Senators.

BEN BULLER has announced his intention of speaking on the California side of the Chinese question. It will be remembered that at a Fourth of July celebration in 1868 he took distinct ground against Chinese immigration.

BRITISH COLUMBIA NEWS.

But little snow has fallen in the interior.

Labor is represented to be scarce in Cariboo.

The wreck of the bark Lunalilo has been sold at Victoria for \$900.

A quartz ledge is represented to have been struck crossing Grouse creek, Cariboo.

The Cooper claim on the Bonanza ledge has been sold for \$9,000. It cost Cooper to locate it \$48 50.

A bar of gold valued at \$163 57, obtained from 338 pounds of rock from the Perseverance quartz mine, Cariboo, arrived at Victoria on Thursday night.

The bark Marmion, at Departure bay, and the bark Maylay, at Nanaimo are loading for San Francisco for which port the bark Frank Austin sailed on Tuesday with a cargo of Chase river coal.

The third session of the present Legislature was opened yesterday by the Governor in a speech from the throne, in which great stress was laid on the present and prospective prosperity of the country, in consequence of the gold quartz discoveries in Cariboo, and the steady development of the fishery, lumber and coal interests. The speech will be considered on Monday.

A teamster on the road from Mid-dletown to Calistoga, known as "Old Shep," died from the effects of land-anism administered by his own hand at Calistoga on Saturday last.

[Special Correspondence to the "Journal."]

WASHINGTON, Feb. 1, 1878.

No explanation accounts for the otherwise inexplicable relapse suffered by nearly every one of our great industrial and commercial interests after the convening of the 45th Congress in extra session last October, except the general distrust entertained of its ability to successfully cope with the grave problems confronting it and requiring wisdom to solve. All through the Spring, Summer and early Autumn signs of

BUSINESS REVIVAL.

Which, following every preceding panic, had proved the certain harbingers and forerunners of a complete restoration of confidence and prosperity, continued to multiply; and the feeling was general that we had seen the worst of it and were almost out of the woods. A feeling of insecurity came with the meeting of Congress, and in a few weeks it was found that we had, somehow, retrograded into the very depths of stagnation. At a cost of hundreds of thousands of dollars just two bills, rendered necessary by the partisan malignity of the preceding House, were perfected and passed. The extra lap into the regular session, and in the two months since elapsed not one practical step has been taken to encourage a return of confidence and turn again into the channels of profitable trade the hoarded means of our capitalists. Excluding a very few whose practical statesmanship has been demonstrated in past years, it is felt that Congress has developed a degree of wisdom that would hardly suffice for the conduct of ordinary township affairs. The passage of the

METROPOLITAN SILVER RESOLUTION. After the waste of many valuable weeks on a matter that only amounts to an expression of opinion, has elated the advocates of the Bland bill and depressed its opponents. Despite assurances telegraphed hence from time to time that the measure was steadily losing strength, and of the "Metropolitan" press to the same effect, it appears that precisely the reverse was true; and the remonetization of silver seems now assured, even against a Presidential veto, which is not at all certain—not probable, indeed, many think. The vote in the Senate, Friday, stood ayes 41, to nays 22. Among the former were 19 Republicans and the latter 7 Democrats. In the House, Monday, the vote stood ayes 189—116 Democrats and 73 Republicans; nays 76—55 Republicans and 23 Democrats.

THE WHISKY RING.

Suffered a severe defeat yesterday in the House, as the Southern Pacific ring did on Tuesday. The initiatory step to a reduction of the tax on this Democratic beverage was, as charged, generally believed, attempted under cover of a bill to extend the time for withdrawal of whisky in bond to July 1, 1878. Blackburn, a name always suggestive of every loathsome malady and always counted on to support every Bourbon measure calculated to restore the Government to medieval practices; Reformer Banning, who holds his place by the grace of Eph Holland's repeaters; Harris of Virginia; Tucker from the same commonwealth; and in short, about every Democrat of the pachydermatous order, specially distinguished themselves in advocating the bill. It was estimated that its passage would postpone the payment of several million dollars taxes, the deficit to be made up by taxing other articles of necessity to the poor man's living; because, as I said, it was regarded as the first step toward the reduction of the whisky tax from 90 to 50 or even 25 cents per gallon. Great familiarity with the principles of political economy are unnecessary to see that as our revenues are now barely sufficient for current expenses, tea, coffee or some article even more absolutely necessary, would have had to make up the deficit. To meet the matter in all its bearings, Foster proposed an amendment to the effect that any reduction of the tax was inexpedient. The vote stood ayes 145; nays 112—nearly all Democrats. The feeling is quite natural that this movement is one of reflex action from the illicit whisky traffic of the South and certain localities in the West where there is virtual nullification and the murder of revenue officials is an almost every day occurrence, but as the Federal Government was largely shorn of the power of protecting itself when it consented to the surrender of the legal governments of South Carolina and Louisiana to armed mobs, very little hope of punishing the transgressors is indulged in here; and the substitution of Simon-pure Ku Klux ers for politically offensive officials,

appears to be steadily progressing at the behests of Hampton, Stevens, Lamar, Gordon and Hill. In 1875 Holman's

ANTI-SUBSIDY.

Resolution passed, only 33 members declining to commit themselves. A bare two-thirds majority was obtained in the vote Tuesday on a similar proposition; but even that has thrown the lobbies present here in full force, into the greatest consternation. But, notwithstanding this formal commitment of members by their own votes to an opposition to which they were already pledged by party conventions, those opposed to the steals engineered through Congress almost every session, should understand that adroit managers, supplied with funds to bribe their way to the Treasury vaults, are here; and those gentlemen who find it difficult to resist the plea of a well filled purse or the seductive wiles of a handsome woman, will repay close watching. Mr. Scott's lobby is not the only one in attendance, and railroad rings are not the only kind that have their agents tirelessly watching every opening to buy a vote. The vote of the other day excluding all from the floor of the House not privileged to go there, was also another

HEAVY BLOW TO THE LOBBY.

Even ex-members are now required to register their names and to affix that they have no interest in pending claims, before admittance.

It certainly looks as though the exploits of the Louisiana Commission of last February was destined to make trouble for somebody before the end is reached.

Even Eastern public sentiment appears in sympathy with Beck's resolution prohibiting any further taxation for the extinguishment of the national debt till further orders by Congress. Not because a national debt is regarded in the light of a blessing, but because it is held that the generation that fought the war for national unity to a successful termination and has already diminished the debt by several hundred million, has done its part, at least till the present stringency is relieved.

LOGAN.

THE Carson Appeal proves that Professor Gunning is a fraud. He announced that he had been President of the "American Association for the Advancement of Science," and was the author of a most valuable scientific work, which had received the commendation of the leading scientists of the country. In answer to inquiries concerning the gentleman, letters have been received from Professor N. H. Winchell, State Geologist of Minnesota; Professor W. F. Blake, of the Smithsonian Institute; Professor A. Guyot, Geology and Physical Geography, Princeton College; Professor H. B. Cornwall, Mineralogist, Princeton College; Professors Dana and Sellman, of Yale College, and Professor A. R. Conkling, Geologist, Wheeler's United States Geological Survey. These gentlemen, without exception, say that they have no personal acquaintance with Gunning; that they have never heard him lecture, and that knowingly they have never read any paper or book from his pen.

A vast and vociferous outcry has been raised by the creditor class of the country against the remonetization of silver and very awful things predicted if the United States shall declare the silver dollar a legal tender. A tabulated statement showing the "coinage of the world," showing that of the people in the world using metallic currency over eight hundred millions use silver currency against one hundred and thirty millions using currency of gold and silver together. Belgium, Bolivia, France, Greece, Italy, Spain and Switzerland use gold and silver and their financial conditions are such as to encourage favorable considerations by a country like the United States in which the production of silver is so large an element of its prosperity. It will be but a little time until the wonder will be that any citizen of the United States should have opposed remonetization.

DURING the Summers of 1876-7 about \$175,000 of treasure was recovered from the wreck of the Pacific Mail Company's steamer Japan, which was burned off the coast of China in December, 1874. It is the first wrecking operation ever conducted in the open ocean at so great a depth, the water being twenty-three fathoms deep. The scene of the accident was 135 miles east of Hong-kong; the nearest land was Breaker Point, twenty miles away. The Japan had on board about \$350,000 in specie.

JUDGE TWEED OF ARIZONA.—All the old Placerites in this region will be interested in reading the following telegram from Washington, under the date of the 8th, of the charges against Associate Justice Tweed of Arizona:

About a year ago charges, supported by the signatures of a large number of citizens of Arizona, were filed at the Department of Justice against Associate Justice Tweed, then and now a member of the Arizona Supreme Court, but formerly a member of the California State Senate from Nevada county. He was charged with being intemperate, immoral and under the control of a ring, who used his power for corrupt purposes. Counter representations in behalf of Judge Tweed were, however, received here of sufficient force to require a decision from the Attorney General that further consideration of the grounds of the charges against Tweed might properly be deferred until the expiration of his judicial term. Lately a number of recommendations for Tweed's reappointment have been filed, and among them one bearing the signatures of a large number of Arizona lawyers. One of these lawyers, however—who is certified by prominent Californians as a man of good character—now informs the Department that his name was forged to this recommendation, and that many others signed it under compulsion of fear of injury to the interests of their clients, as it was presented to them for signature just at the commencement of the term of court. Senator Booth has recommended Tweed's reappointment, but Senator Sargent and Representatives Davis and Page recommend the appointment of Charles Silent of San Jose. Booth had also written a letter stating that in case Tweed is not reappointed he, also, will recommend Silent for the position.

The Idaho Statesman does not like the proposed annexation of a portion of Idaho to Montana and thus gives its views on the subject:

"The purpose now uppermost in the minds of Gould and Dillon, who have the enterprise in charge, is to secure a subsidy from Montana, and this is thought to lie at the bottom of the very liberal proposition of Delegate Maginnis to Mr. Fenn for the cession of that portion of Idaho lying north of the base line and east of the 36th meridian. The success of this scheme would advance the prospects of obtaining the subsidy and increase its value to the builders of the road. It may be that when the Montana trade is diverted from Corinne and secured to the completed portion of the road, active operations may cease until the people of Montana act upon the subsidy question, but it is not probable that the work will be permanently hindered or long delayed in the event of the failure to secure the subsidy."

We do not believe there is a sensible man in Nevada who can read the late report of the Grand Jury of Washoe county and not wish such secret, one-sided inquiries done away with forever. As secret tribunals they are antagonistic to the spirit of our Government and at best but one remove from semi-barbarism. All the good they accomplish can be effected at less expense in other ways. They have frequently been made instruments in the hands of designing men for blackening fair and upright characters and will continue to be so used as long as they are allowed an existence. They are an abomination which should be done away with at once and forever. So much for grand juries in general, and the following from that of Washoe:

"We believe the Sheriff has honestly striven to make all he could out of the county according to law, and that in many cases he has done more."

"With the intention of passing the Sheriff's office with a severe reprimand, this Grand Jury found it impossible to neglect the following charges, manifestly illegal, and here-with present them for the consideration of the Court."

We intended to extract more of these telling paragraphs, but find the whole report pretty much alike. That Grand Jury differs a little from Dogberry. It has written itself down a pack of asses.—*Eureka Republican*.

CORNUCOPIA PRODUCE.—Notwithstanding the cold shoulder being turned upon Cornucopia, that place has done remarkably well during the past year. The bullion shipment on the 3rd was the completion of 685 bars during the year ending on that date. These bars were worth \$1,047,750, or an average of \$1,650 each. This amount has been produced by the Leopard Company's twenty-stamp mill, and considering the fact that Cornucopia is looked upon by all as a played out camp, this makes a very flattering appearance. At present the mill is shut down, undergoing thorough repairs before started up on Hussey ore.—*Tuscarora Times Review*.

The school recently erected by the Rev. Father Gibney, near the corner of Twenty-fourth and Alabama Sts., was dedicated Sunday by His Grace the Archbishop. Bro. Justin, President of St. Mary's College, delivered the dedicatory address.

Rev. T. H. Rouse has resigned the charge of the Congregational Church in San Mateo, and accepted an invitation to take charge of a church at Wailuka, Hawaiian Islands. He will sail for the Islands in a few days.

Special services are held daily in the Methodist church at San Jose.

CALIFORNIA STATE NEWS.

San Diego had a fine rain Friday, it being continued for 24 hours.

Two men named William Dunn and Benjamin Watson were recently arrested at French Camp, San Joaquin county, for skinning sheep alive.

Says the Los Angeles *Express*: One small nugget, worth all the way from half a dollar to 75 cents, is the cause of the gold excitement at Santa Monica.

A young man named Jose Lewis disappeared in August last from the premises of the late James Duffy, near Etna, and has not since been heard from.

The *Ledger* says the Amador Company's mill, near Sutter creek, saws 7,000 feet per day, and 15,000 a day is expected to be accomplished with a greater pressure.

The body of an Italian, named Stefano Barona, was found in a cabin at Volcano last week minus a piece of skull. An empty shot-gun was lying by the side of the body.

Louis Grinnel, the Chairman of Kearney's last meeting at Sacramento, and whom he selected as the leader there, has been examined by the Commissioners of Lunacy and pronounced insane.

Governor Irwin has pardoned Daniel Buckley, convicted of murder in the second degree in Tehama county 1874, and sentenced for ten years, because of reasons discovered showing his innocence.

The trial of Frazier, the Shasta stage robber, was commenced at Marysville Friday. Only four jurors were accepted from a panel returned by the Sheriff Friday, and a new venire was issued for twenty jurors.

The passenger train over the California and Oregon railroad, which left Sacramento Friday afternoon, succeeded in getting through to Redding, being the first to arrive for about two weeks. The entire road is now in working order.

Santa Rosa girls like to look nice. Once of them heard a rap on the door a few days ago, so she went to her room, changed her dress and fixed her hair, then going to the door she met a gentleman that wanted his dinner, and hoped she could give him a job of work to pay for it.

The stage which left North San Juan at an early hour Saturday morning, to connect at Smartsville for Marysville, was stopped by masked highwaymen about 11 o'clock, ten miles above Smartsville, and robbed of the United States mail-bag, and Wells, Fargo & Co.'s treasure box. The mail bag was ripped open, and letters taken. The treasure-box was empty.

Gus Armin, alias Baskauntz, and Thomas Newman, alias Rantalias Wilson, two prisoners confined in the Yuba City jail, made their escape Saturday evening about 7 o'clock, by removing bricks from the wall, and passing out through the hall of the Court House. Armin, committed for burglary, is a German, aged about 28 years; is about 6½ feet high; has gray eyes, dark hair, a prominent nose, and scar over the left eyebrow. Newman, held under indictment for stage robbery committed in Shasta county, is an Irishman, aged about 30 years; weighs about 100 pounds; has whiskers all over his face; moustache and whiskers considerably mixed with gray.

THE SMALLEST BOY.

Master Frankie Flynn, of Norwich, N. Y., is probably the smallest specimen of a boy ever known. He is four and a half years old, and is thus described by the correspondent of the *Utica Observer*: "We went to see him, expecting a Tom Thumb or Commodore Nutt to walk in upon us. Imagine our surprise when his grandmother brought him in as one would a cat. He is not so large as one of Tom Thumb's legs. In Tom Thumb's carriage he would look as lonesome as an ordinary man in a circus band wagon. To sit upon one of Tom Thumb's easy chairs would be to him what it is to the ordinary boy to perch upon a gate post when the Spring comes. He is smaller than any one can conceive who has not actually seen him. His wrist is the size of an ordinary man's thumb, his ankle but a slight increase. He stands 23 inches in his shoes, and weighs, clothes and all, 12 pounds. That is the most he ever weighed in his life. Still, he is a very lively, sprightly boy, very active, climbing into chairs and getting down; walks around with his hands behind him, like his grandpa, and talks and laughs, and is as cute as any boy of his years. He is no larger than when he was one year old."

Prescott wants a Government assay office.

THE ALTAR.

STEWART-BROWN—In Virginia City, Feb. 10, 1878, by Rev. W. E. Jorsey, H. W. Stewart to Miss Eva Brown, all of Virginia.

NEW TO-DAY.

SCHOOL ELECTION.

NOTICE is hereby given that there will be an election held on the second day of March at the house of W. E. Everett, in Hufacker School District No. 9, to submit to the qualified electors of said district the question of levying a tax of fifteen hundred dollars for the purpose of building a school house in said district. Polls will open at 1 o'clock P. M. and close at 6 o'clock P. M.

By order of the Board of School Trustees of said District.

W. F. EVERETT, T. W. NOBACROSS, Hufacker's, Washoe Co., Feb. 7, 1878.

MISCELLANEOUS.

MUTINY.

Uncle Sam's Defenders on the Rampage - Three Soldiers Shot and Nineteen Under Arrest.

Last Sunday night ten car loads of soldiers aggregating 200 men, signed to the First and Sixth Cavalry, San Francisco, Major Mears commanding, passed through town.

Matrimonial.

On Sunday last H. W. Stewart, formerly A. P. telegraph operator here, was married to Miss Eva Brown, sister of E. A. Brown and W. W. Coffin, also telegraph operator here.

Valentines.

Charlie Knust has a splendid assortment of valentines, fancy and comic. Go and look at them, Thursday is the day.

It was raining hard all day yesterday in Sacramento. This will add strength to the inundating waters and to the discomfort of the flooded city.

Hon. W. W. Bishop, the celebrated Eureka lawyer, spent Sunday in Reno with his brother, Dr. Bishop.

The Methodist revival meetings have ceased. Unpropitious weather.

The Lyceum meeting, to-night will be a pleasant session.

Pierce Evans is going to have a nobby office.

Pedro still drives dull care away with many.

Four Prisoners Break Out of the County Jail - Two Recaptured - Officers Scouring the Country for the Other Two.

On Sunday evening at 7 o'clock John Laffin and three Chinese prisoners escaped from the county jail, having dug through the south wall, it being no trick at all to cut out the mortar and remove the bricks. The alarm was given and all of our officers began the search, but up to the present time but two of the Chinamen have been recaptured. One was caught by the night watchman at the Haffaker wood dump, and the other up near Mayberry's by Officers Chamberlain and Thomas. These two were under indictment for grand larceny, committed at Wadsworth; the other Chinaman for burglary, at Franktown. But the greatest interest is manifested to get Laffin, the second one who attempted to fire the C. P. depot. Besides our officers, C. P. detectives Burke and Harris, are hunting for him, and we hope to record his capture to-day. A reward of \$50 is offered by Sheriff Lamb. Our jail is not worthy of the name, and nearly every Grand Jury has recommended that it be made perfectly secure. We ask the Commissioners not to put it off any longer.

The Telephone Was tested the other day over the extraordinary distance of 240 miles. The agent for Donnelly's yeast powder was standing by and remarked that one million boxes of the powder was consumed daily. The party on the other end heard it and answered "there is millions in it." Just think of talking about Donnelly's yeast powder 240 miles away.

Burglary. A few evenings since an opening was made in the rear wall of the old Bank saloon, a sufficient number of bricks being taken out to permit a small sized person to enter. Harvey Tompkins' cabinet was broken into, and about \$60 worth of old coins taken. Yesterday a boy named Woodward was arrested, charged with the crime. This is the boy who formerly worked for the Western Union Co.

Roll of Honor.

The following is the roll of honor in Bishop Whitaker's "School for Girls," for the month ending February 8, 1878: Jessie Kirkpatrick, 98.4; Mollie Grippen, 98.2; Minnie Miller, 97.0; Mary Rogers, 97.5; Lattie Hoole, 97.2; Lizzie Miller, 97.2; Luella Dalton, 96.8; Alice Gallo-way, 96.5.

Lightning Ditched.

As the lightning train was making its usual run from Virginia city to Reno last night it ran into the ditch the other side of Carson. A misplaced switch caused the engine to leave the track and take to the mud. A delay of over an hour was thus occasioned. The "Reno" was nearly buried in the sand, and the "Genoa" brought the train to town.

Suspicious Characters.

We notice several suspicious characters around town--new arrivals. Somehow or other Reno is a favorite resort with men of bad repute. Our citizens will do well to keep an eye upon these fellows. Help them if needy; shoot them if they attempt to do wrong.

Dance at Haffaker's.

Probably next Monday night Billy Everett, Tom Norcross and others will give another dance at Haffaker's in aid of the new school house. Tickets, including supper, will be \$2.50. Those who attended the first party will want to go to this second one.

House Breaking.

Last Sunday night the house kept by Annie Giles, on the south side of Second street, was broken into and robbed. The owner was absent at the time. We did not learn the amount stolen.

\$50 Reward.

Sheriff Lamb offers a reward of \$50 for the arrest of John Laffin, who escaped from Jail Sunday evening.

Yesterday forenoon it only sprinkled a little, but in the afternoon a regular storm set in, and continued throughout the night.

The Trustees of Haffaker's School District have called a special election for the 2d of March to vote upon the proposition of a \$1,500 tax for a new school house.

The Baptists are diligently preparing for their approaching concert. The time has not been set as yet, but will be as soon as they are ready.

SHERIFF'S SALE.

BY VIRTUE OF A DECREE ISSUED OUT of the District Court of the Second Judicial District, in and for Washoe County, State of Nevada, duly attested on the 7th day of February, A. D. 1878, to me directed and delivered on the 8th day of February, 1878, upon a judgment and decree recovered in said Court, on the 31st day of February, A. D. 1873, in favor of DENNIS MAHONEY, Plaintiff, and against SMITH J. HILL and SAMUEL M. OAKES, Defendants, for the sum of one hundred and eighty-six and 25/100 (\$186 25/100) dollars, principal, and twenty-five and 83/100 (\$25 83/100) dollars interest to date of judgment, with interest on one hundred and eighty-six and 25/100 (\$186 25/100) dollars from judgment at the rate of three per cent per month till paid, with attorneys fees as provided for in said mortgage, the sum of twenty-one and 21/100 (\$21 21/100) dollars, G. S. gold coin, together with Thirty-three and 55/100 (\$33 55/100) dollars costs and disbursements at the date of said judgment and decree, and accruing costs, I have levied upon the following described real property to wit: (foreclosure of a certain mortgage) all of that certain piece of land known and described as lot one (1) in block "P" situated in the town of Reno, County of Washoe, State of Nevada, as shown upon the official map of said town of Reno on file in the County Recorder's office of said county of Washoe; also the part or portion of lot two (2) in said block "P" in said town of Reno, County of Washoe, State of Nevada, bounded and described as follows: First beginning at the north-easterly corner of the foreclosed lot No. 1 in said block, extending thence northerly along the east line of said lot No. 1 (150 feet) to the east line of Virginia street (150 feet) thence at right angles to the east line of Virginia street and easterly ninety (90) feet, thence at right angles northerly twenty (20) feet, thence at right angles westerly ninety (90) feet to the east line of Virginia street, thence northerly along the east line of Virginia street fifty (50) feet, thence at right angles easterly one hundred and forty (140) feet to place of beginning. Together with all and singular the tenements, hereditaments and appurtenances of said two above described parcels of land.

Notice is hereby given that on MONDAY, THE 4TH DAY OF MARCH, A. D. 1878, between the hours of 9 o'clock A. M. and 5 o'clock P. M., to wit at 2 o'clock of said day in front of the Court House doors, Reno, in said Washoe County, State of Nevada, I will sell at public auction all the right, title and interest of the said Defendants in and to the above described property to the highest and best bidder for cash, in U. S. gold coin, to satisfy said judgment, costs and accruing costs.

A. K. LAMB, Sheriff.
By WM. H. YOUNG, Deputy Sheriff.
Dated February 8th, A. D. 1878.

IN THE DISTRICT COURT OF THE UNITED STATES, for the District of Nevada—in the matter of HENRY WARD, Bankrupt, in Bankruptcy—United States of America, District of Nevada, ss.—A warrant in bankruptcy has been issued by said Court against the estate of Henry Ward of the town of Reno, county of Washoe, and State of Nevada, in said district, who has been duly adjudged a bankrupt upon his own petition, and the payment of any debts and the delivery of any property belonging to said bankrupt, to him or to his use, and the transfer of any property by him are forbidden by law. A meeting of the creditors of said bankrupt, to prove their debts and choose one or more assignees of his estate, will be held at the Court of Bankruptcy, to be held in Virginia, in said district, on the FOURTEENTH DAY OF FEBRUARY, A. D. 1878, at 1 o'clock P. M., at the office of E. Strecher, Room No. 4 Odd Fellows' Building, corner of C and Smith streets, one of the Registers in Bankruptcy of said district.

NOTICE.

TO FRANK DE DECKER.—Take Notice.—You are hereby notified that the co-owners with you in the claims known as Copenhagen, located December 2, 1876, and Belgium, located May 1, 1876, mining claims, situate in Peavine Mining District, Washoe County, Nevada, have worked the same in accordance with the United States Mining Laws so far as their interests are concerned. Now, therefore you are hereby notified to come forward and contribute your proportionate share in accordance with the requirements of the United States Mining Laws, within ninety days from the first issuance of this notice, otherwise they, your co-owners, will avail themselves of your rights as granted by the United States Mining Laws, approved May 10, 1872, Section five (5).

J. A. PETERSON,
F. VAN DOCKEN.
